

針對 Part 3 我們分為 4 個 task，前兩個 task 不測試 max epoch 數，改設 early stop 節省時間

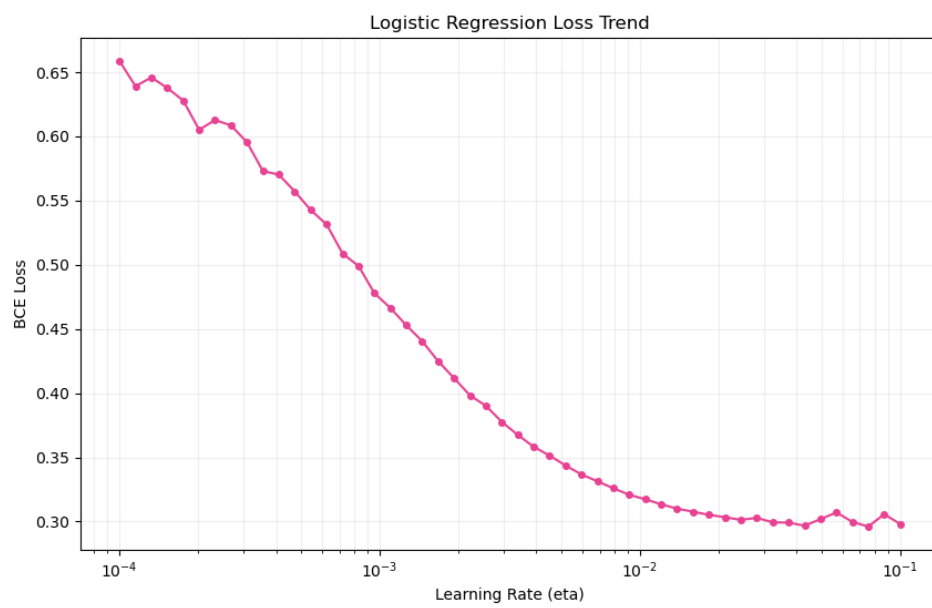

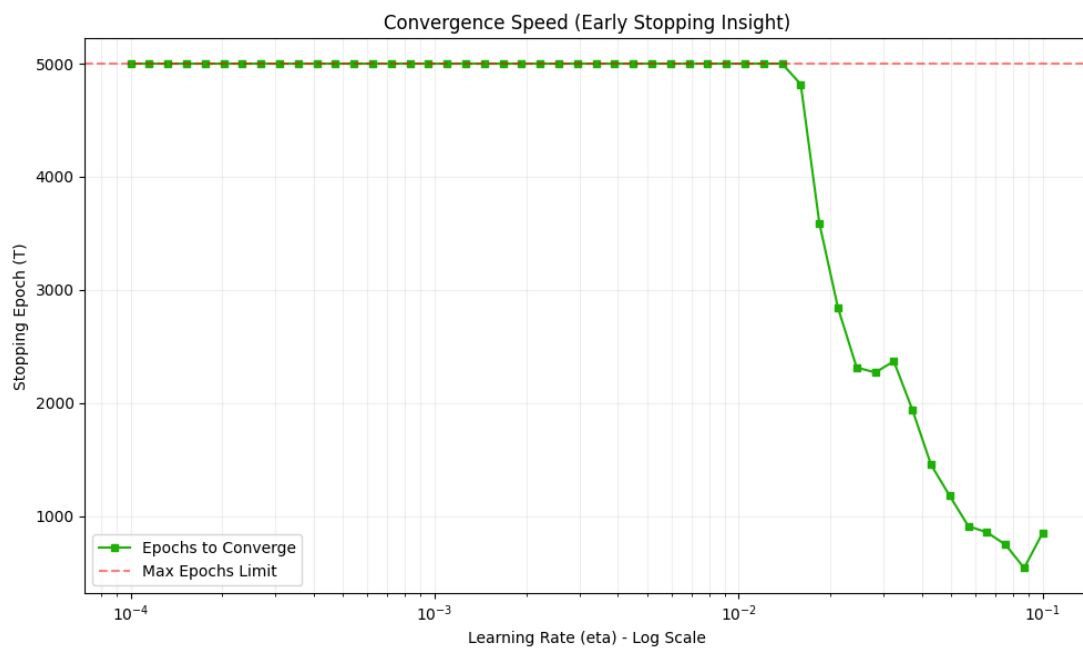

Task 1 : Linear Regression

- Learn rate 過小不易收斂

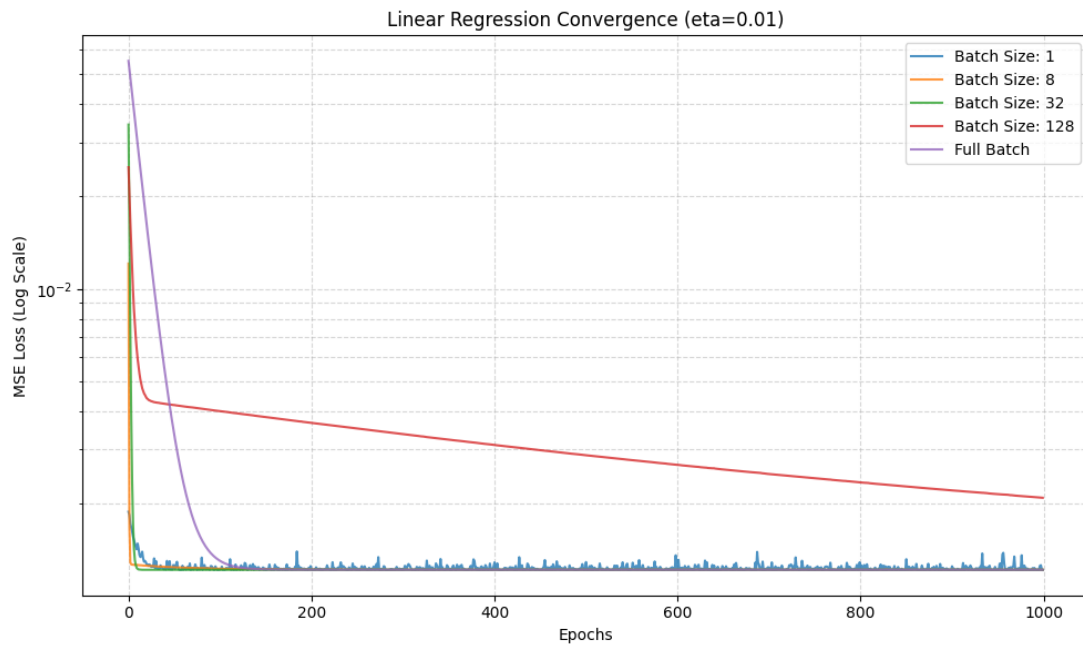

Task 2 : Logistic Regression

- 跟 Task 1 相同，learn rate 小不易收斂

Task 3 : Variant Batch Sizes for p1

Task 4 : Variant Batch Sizes for p2

SGD 的 loss 情況很不穩定，實際上在訓練都是 mini-batch GD
